Like most facilities', I am sure you have local vendors that you enjoy working with on weddings at your facility. You give us their names and we will invite them to participate—at no charge. It's a great way for you to show your appreciation for all those vendors do for you. We promote your Open House to the thousands of brides and grooms we have in our data base and through local media. We can also provide you with up to 2,000 mailing labels of local brides and grooms, if you want to send a personal invitation to them. We will provide an MC with full sound system from the Mid-South DJ

Association, along with games and prizes to keep everyone entertained. **MarriedInMemphis.com**
Television will be there to cover the event and promote your facility.

All the facility has to do for this exclusive 2 hour event is provide;

- Topped tables for the various vendors
- Chairs for the brides and grooms to sit
- A food tasting - the menu is up to you, depending on what you want to showcase to the brides.

Your chef may have a specialty that they will want to show off. **NOTE** - You do not want to put any food out until the beginning of the second hour of the event. You do not want the brides and grooms coming in, tasting your food and walking out the door.

Be sure to have a few extra people on hand to take the brides & grooms around to see all the amenities that you have to offer to them at your facility. Also be sure to have your calendar of available dates for weddings, so that you can book them on the spot! Get with us to find a date that meets with your approval. We will need to meet with you at the facility to design an Open House that you feel shows your place in the best light!

We look forward to working with you and building your wedding business!
